## **Cork City Radio Museum**

North Cork Radio Group would like to ask the amateur Radio community for donations on behalf of the Cork City Radio Museum. The Museum for those not aware is situated in the old Governors House at Cork City Gaol and houses a wonderful collection of artefacts, including the RTE restored 6CK Radio Broadcasting studio.

Some years ago the museum was in the early phases of modernisation by the late Larry O'Sullivan EI8FJB, and a lot of Larry's work is still in place although sadly unfinished. As a result the museum is in need of restoration and TLC, the centre at present is only open to requested visits.

It is our intention with the help of the community to help the declining facility reach Larry's goals in bringing such a wonderful place back into the public access zone.

If anyone can help in donating any form of equipment from the nostalgic golden era right up in to present it would be greatly appreciated.

Anyone who can help with surplus items can contact either Anthony EI3GAB or Pat EI2GHB via info /at/ ei1nc/ dot/ com or at any NCRG meeting on the first and third Wednesday of the month. Information on the group is available at [www.ei1nc.com](http://www.ei1nc.com)

---

## **Blackrock Castle Observatory Cork**

North Cork Radio Group will be active EI1NC/P on February 19 and 20 from 10am until 5pm at Blackrock Castle Observatory a 16th century Castle located 4km from the heart of Cork city on the banks of the river Lee.

The Castle has seen many uses in its vast history and now houses the cutting edge of space and observation technology, more info on the Castle is available at [www.bco.ie](http://www.bco.ie) information on NCRG is available at [www.ei1nc.com](http://www.ei1nc.com)

## **Amateur Radio helps rescue co-ordination**

Radio Amateurs in the Brazilian town of Nova Friburgo, have received high praise from the Brazilian civil defence authorities during the recent flooding there.

Lt Col Roberto Robadey, said, "without their help, we couldn't have done anything in those first two days," Radio amateurs took their radio equipment to key points across the town to provide a communication link between rescue groups.

---

## **Radio History**

On this day in 1909, the first Radio rescue at sea took place. The distress signal was CQD later to be replaced by SOS.
